

4 STEPS TO ENGAGING PARENTS/CARERS SO STUDENTS CAN BE AT THEIR BEST

We focus on engaging parents in four ways, which will support you in achieving your school goals for the long term.

KNOWLEDGE

ENVIRONMENT

CULTURE

COMMUNICATION

ENGAGEMENT

Understand the school's expectations of parents

Know how, when and why to support a child's learning and development

Are able to use school technology e.g. parental portal or app

Know how to access their child's progress information

Know who to contact for help

Support parents in creating a home environment and habits to support learning

Create a school environment that welcomes and supports parents

Create an online environment where parents find what they need easily

Build a planned school culture, values and behaviours that supports the parent, student and school partnership

Build trusted relationships between the school team and parents

The school team respects parents' beliefs, culture, expectations and parenting style

Provide simple, easy to access, consistent and clear information – creating an ongoing conversation

Support for parents' communication needs e.g. dyslexia or different languages

The school team communicates skilfully with parents

Support parents in communicating with their children

Recognise parents for their great work

The result:

Empowered parents who activate student learning

- Know how, when and why to support their child's learning
- Actively involved in parent events (PTA, trips)
- Feel listened to and supported
- Speak positively about their child's school

This also impacts:

Student behaviour

Student results

Student attendance/punctuality
